

# INDEX

- Abundance and density, of snowshoe hare, 152-153  
of *Conus*, 54-60
- Adams, L., article, 141-170
- Algonquin Park, Ontario, forests, 187-218
- Aluminum, effects on seedlings, 321-323
- Anatidae, parasitic egg-laying in, 333-365
- Anderson, K. L., article, 171-186
- Andresen, J. W., article, 309-332
- Bass, smallmouth, productivity of, 367-392
- Behavior, in the Redhead, of parasitizing female, 340-344
- Bud activity and light period, 295
- Carriker, M. R., article, 219-266
- Caryopses production, 293
- Chrysemus picta*,  
annual cycle, 117-136  
autumn behavior, 134-136  
spring movements, 119-126  
summer pattern of dispersion, 126-134
- Conus*, abundance and density, 54-60  
ecology of, in Hawaii, 47-90  
food habits, 68-79  
habitat, 48-51  
life history, 52-53  
local distribution, 61-63  
predation on, 79
- Crassostrea virginica*, growth rate, 240-243  
larval life, 240-243  
local distribution, 239-240  
predation on, 253-255  
spawning, 243-245
- Cycles, in snowshoe hare, 166-167
- Dormancy, of grasses, 293-296
- Dunes, vegetation of, 2-20  
topography and environment, 21-37
- Ecotypes, photoperiodic, in trees, 91-112
- Ecotypic variation, role of, in grassland, 285-308
- Egg-laying, parasitic, in the Redhead, 333-365
- Environment, sand dunes, 21-37
- Floral initiation, grasses, 288
- Flowering of grasses, and light, 295
- Flowering behavior, grasses, 297-300
- Food habits, of *Conus*, 68-79  
of snowshoe hare, 163
- Forest succession, Ontario, 187-218
- Grasses, in transplant gardens  
caryopsis production, 293  
community activity, 294  
floral initiation, 287  
flowering patterns, 288  
spring activity, 287  
vegetative dormancy, 293
- Grazing treatment, responses of prairie, 171-186
- Habitat, of *Conus*, 48-51  
of smallmouth bass, 367  
nature of, in grasslands, 300
- Hawaii, ecology of *Conus* in, 47-90
- Herbel, C. H., article, 171-186
- Host reaction, to parasitic intrusion, in the Redhead, 352-354
- Kohn, A. J., article, 47-90
- Lake Huron, smallmouth bass productivity in, 367-392
- Light period studies, of grasses, 295-297  
bud activity, 295  
flowering, 295  
vegetational dormancy, 296
- Lepus americanus*, abundance and density, 152-153  
behavior, 158-163  
breeding data, 153-163  
cycles, 166-167  
development of young, 155-158  
food habits, 163  
mortality, 163-166
- Long Island, physical factors in salt-water pond, 222-238
- McMillan, Calvin, article, 285-308
- Martin, N. D., article, 187-218
- Martin, W. E., article, 1-46
- Mercenaria mercenaria*,  
growth rate, 240-243  
larval life, 244-253  
local distribution, 239  
predation on, 253-255  
protection of, 255-257  
spawning, 243-244
- Montana, snowshoe hare in, 141-170
- Movements, in painted turtle population, 113-140
- Nanism, pseudo-, *Pinus rigida*, 309-332
- New York, physical analysis of Long Island salt water pond, 222-238
- Oyster, factors in culture of, 219-266
- Painted turtle, population movements of, 113-140
- Paleosuccession, 215
- Parasites and disease, in snowshoe hare, 164-166
- Parasitism by the Redhead, 333-365
- Patterns, dune vegetation, 21-29
- Photoperiod, and grasses, 295-297  
and trees, 91-112
- Photoperiodic ecotypes, 91-112
- Phytometer tests, *Pinus rigida*, 318-323
- Pine barrens, N.J., 309-332
- Pinus rigida*, pseudo-nanism, 309-332  
survival and growth, 311-315  
sprouting studies, 315-317  
phytometer tests, 318-323
- Population, movements in painted turtle, 112-140  
productivity in smallmouth bass, 367-392  
systems, grassland, 297-299
- Prairie vegetation, response to grazing, 171-186
- Predation, on *Mercenaria*, 253-255  
on snowshoe hare, 164
- Productivity, of smallmouth bass population, 367-392

- Range sites, prairie  
  major Flint Hills, 171-186  
  response to grazing, 171-186  
Redhead, parasitic egg-laying in,  
  333-365  
Reproduction, in snowshoe hare,  
  154-158
- Salt spray, tolerance to, 38-41  
Sexton, O. J., article, 113-140  
Snowshoe hare, population study  
  in Montana, 141-170
- Soils, pine barrens, N.J., 323-328  
Spatial dispersion, in painted  
  turtle, 113-140  
Spawning, *Crassostrea virginica*,  
  240-243  
Successions, of forests, Ontario,  
  187-218
- Temperature, effect on emigration  
  of painted turtle, 123-124
- Transplant garden studies, grasses,  
  287-294
- Vaartaja, O., article, 91-112  
Vegetation, Island Beach State  
  Park, N.J., 1-46  
Vegetation patterns, dunes, 2-20  
Venus clam, factors in culture of,  
  219-266
- Watt, K.E.F., article, 367-392  
Weller, M.W., article, 333-365
